## SAVE THE DATE

Wednesday, June 21, 2017

### Meriden HUB Tour

As part of an ambitious flood mitigation project, the City of Meriden unearthed a once-hidden stretch of Harbor Brook, the waterway that passes through its downtown. Combining flood mitigation and economic revitalization, a key aspect of the project was the creation of the Meriden Green, a new urban park that doubles as a flood storage facility.

Please join CAFM at 10:00am on Wednesday, June 21 for a morning tour of Meriden Green and related flood mitigation project components followed by a box lunch picnic.

The rain date will be Friday, June 23.

Recap

## May Training Workshops

CAFAM hosted two training workshops covering the elevation certificate and coastal construction on May 3 in Fairfield and May 4 in Old Lyme. Staff from the FEMA Region I office conducted the workshops. Approximately 80 people attended these events, including municipal officials, surveyors, contractors, and consulting professionals.

## About CAFAM

Modeled after similar organizations in other states throughout the country, CAFAM is a statewide chapter of the Association of Floodplain Managers. CAFAM's mission is to develop a professional community that promotes education, policies, and activities that mitigate current and future losses, costs, and human suffering caused by flooding, and to protect the natural and beneficial functions of floodplains. CAFAM is a 501(c)3 organization.

Members who are interested in joining the Events Committee to help plan and prepare for the Annual Conference are encouraged to contact CAFAM at [contactcafam@gmail.com](mailto:contactcafam@gmail.com)
