

Floodplain Administrator 101 Training Workshop

The New Hampshire Office of Energy and Planning (OEP) will be holding a *free* two-hour floodplain administrator 101 training workshop for local community officials in four locations in the state.

The workshop was developed for community officials who administer and enforce floodplain regulations, review applications and/or issue permits for development in floodplain areas, and for other community officials who are interested in learning more about a community's responsibilities as a participant of the National Flood Insurance Program (NFIP).

The training workshop will provide information and guidance about the NFIP basics, the floodplain maps and studies, the 12 key floodplain regulations, and the responsibilities of the floodplain administrator and the community to remain in good standing in the NFIP.

June 22, 2017 2 pm to 4 pm	July 12, 2017 10 am to 12 pm	August 21, 2017 1 pm to 3 pm	September 18, 2017 10 am to 12 pm
