

CAFM 13TH ANNUAL CONFERENCE

2026 ANNUAL CONFERENCE AND MEETING

CENTRAL CONNECTICUT STATE UNIVERSITY | DECEMBER 2ND

CONNECTICUT Association of Flood Managers

The question is not if the next big storm is coming. It's when. And when it does, are we ready? The Connecticut Association of Flood Managers (CAFM) has held 12 annual conferences, drawing professionals together to share their flood management experience and promote flood resiliency throughout the state. For our thirteenth annual event, CAFM is planning an engaging program that will appeal to professionals working in Connecticut communities in various roles, whether they are planners, building officials, engineers, surveyors, or insurers.

The Connecticut Association of Flood Managers (CAFM) will convene its 13th Annual Conference and Meeting **in person** at the Central Connecticut State University (CCSU) Student Center on Wednesday, December 2, 2026. We have sessions with informative presentations by expert speakers and invite you to share your experiences as municipal and state officials, industry leaders, consultants, and other interested parties to promote a more flood-resilient Connecticut.

A cornerstone of CAFM's mission is to educate a broad range of professionals to address the many issues and problems associated with managing flood risk, making communities more sustainable, and protecting floodplain and fragile natural resources. This conference will examine the various flooding challenges facing Connecticut, the various programs and protective measures and funding sources that have been implemented to address these concerns, and provide an opportunity to share experiences and lessons learned as flood managers and municipal officials.

ABOUT CAFM

Modeled after similar organizations in other states throughout the country, CAFM is a statewide chapter of the Association of State Floodplain Managers (ASFPM). CAFM's mission is to develop a professional community that promotes education, policies, and activities that mitigate current and future losses, costs, and human suffering caused by flooding, and to protect the natural and beneficial functions of floodplains. CAFM is a 501(c)3 organization.
